£.	6,715	6	5
Sum wanted to complete the Estimate	3,825	9	7
£.	10,540	16	–

N. B.—The Society beg leave to add the following extract of a Letter of the Right honourable Charles Grant, when Chief Secretary to the Lord Lieutenant, dated Dublin Castle, 27 March 1820, in order to show that the Society had the sanction of His Majesty's Government in awarding Annuities to deserving individuals in their employment, for long and faithful service, or upon suppression of any of the Society's Schools:

"The Lord Lieutenant deems it of importance to state, that in case of any change or contraction of the Charter Schools, a scrupulous regard ought to be paid to the claims of *those who have embarked their interests for life on the faith of the unaltered continuance of the Institution.* Among these must be included all the Servants, Officers and dependants on the Schools, and by a still more affecting title, the children who are at present under a course of education, and who could not therefore be abandoned without cruelty."

7 December 1831. *John Torrens*, Chairman.

— 3. —

AN ESTIMATE of the Sum that will be required to defray the Expense of the FOUNDLING HOSPITAL in DUBLIN, for the Five Quarters from 1 January 1832 to 31 March 1833; calculated to maintain in the House 1,040 Children of Six Years old and upwards, and 3,618 Children, or thereabouts, at Nurse in the Country.

	£.
Estimated Expenditure for One Year	26,314
Add for Fifth Quarter	6,578
	32,892
Deduct Balance in hand, applicable to the Expenditure	2,000
£.	30,892

Thirty Thousand Eight Hundred and Ninety-two Pounds;
Clear of Fees and all other Deductions.

		£.	s.	d.	£.	s.	d.	
N° 1.	Provisions for 1,000 Children, calculated at 2 ¾ *d.* per day each	4,182	5	10	-	-	-	The same as last year, both as to the number of Persons and rates per head.
	Provisions for 40 Females of advanced age, employed in the laborious works of the House, which the young Children are unequal to, at 6 *d.* per day each	365	–	–	-	-	-	
	Provisions for 34 Masters, Mistresses, Orderlies and Servants, at 11 *d.* per day each	568	15	10	-	-	-	
					5,116	1	8	
2.	Clothing	-	-	-	2,085	–	–	- - The same as last year, the number being the same.
	Miscellaneous Expenses, viz.							
3.	Coals	405	–	–	-	-	-	- - A reduction in the price of this article causes a decrease of £. 45; last year being £. 450.
4	Candles and Soap	163	–	–	-	-	-	These several head of expenditure same as last year.
5.	Lighting with Gas	110	15	4	-	-	-

10.	Bedding, Straw, Brushes, Tin-ware, Tubs, Ironmongery, &c.	284	–	–	-	-	-	
11.	Contingent Disbursements	90	7	9	-	-	-	
					1,463	3	1	
	Carried forward			£.	8,664	4	9	

Printed image digitised by the University of Southampton Library Digitisation Unit

3.—Estimate of the Expense of the Foundling Hospital—*continued.*

		£. s. d.	£. s. d.	
	Brought forward - -	- - -	8,664 4 9	
N° 12.	Apprentice Fees, viz.			
	Apprentice Fees payable on the Children being bound, suppose 300 Children, at £. 1 each -	300 – –	- - -	The Governors expect to apprentice 300 Children during the year 1832.
	Clothing for 300 Children on being bound Apprentice, at £. 1. 1 s. each - - - - - -	315 – –	- - -	
	Clothing for 419 Children on the expiration of the first year's Apprenticeship, at £. 1. 1 s. each -	439 19 –	- - -	These several Amounts become payable during the year 1832.
	Clothing for 343 Children on the expiration of the second year's Apprenticeship, at £. 1. 1 s. each	360 3 –	- - -	
	Premiums payable to 157 Children on serving their Apprenticeship faithfully, at £. 2. 15 s. 4½ d. each - - - - - -	434 13 10	- - -	
			1,849 15 10	
13.	Salaries and Wages to Officers, and to Masters, Mistresses and Orderlies in the Schools, and Servants - -	- - -	2,085 1 6	- - The assistant Matron and Schoolmistress in the Infirmary department having resigned, whose Salary amounted to £. 18. per annum, a Schoolmistress was appointed at a Salary of £. 7. 12. 4 per annum; the difference effects a saving of £ 10. 7. 8. in the present Estimate.
14.	Retired Allowances to Superannuated Registrar, Housekeeper and Schoolmistress - - - - - -	- - -	266 3 3	These several heads of Expenditure same as last year.
15.	Retired Allowances to 3 late Collectors of Tax - - - - - -	- - -	65 – –	
16.	Repairs, &c. of Buildings - - -	- - -	461 10 9	
17.	Nursing Children in the Country.			
	Calculated at the rate of £. 5. per annum for 35 Infants, under one year old - - - - -	175 – –	- - -	A reduction in the gross number at Nurse in the Country of 527 Children causes a diminution in the aggregate amount of £. 1,969. 15.; the estimated amount last year being £. 15,213. 10.
	Calculated at the rate of £. 3. 5 s. per annum for 735 Children, from one to five years old -	2,388 15 –	- - -	
	Calculated at the rate of £. 3. 15 s. per annum, for 2,848 Children, from five years old and upwards	10,680 – –	- - -	
			13,243 15 –	
	TOTAL Amount of Expense	- - £.	26,635 11 1 (a)	
	Deduct therefrom:			
	Rent of Estate - - - - -	106 4 11		
	Also the Amount received on the admission of 43 Infants, at £. 5. each, admitted to 20 April 1831 - -	215 – –		
			321 4 11	
	BALANCE of Estimate	- - - £.	26,314 6 2	

(a) The total estimated expense last year amounted to £. 28,660. 6 2. The decrease upon similar heads of expenditure is less this year by £. 2,024. 15. 1.; but it must be observed that in the Estimate for the year ending 5th of January 1832, credit was given for £. 730, received on the admission of Infants in the course of the former year: whereas the sum of £. 215 only was received in the course of this year, namely, up to the 20th April 1831*, and therefore the demand upon Parliament to complete the Estimate for the year 1832 is only £. 1,509. 15. 1. less than the former demand.

* The Hospital being entirely closed from future admissions by order of Government.

Foundling Hospital, 1 December 1831.

H. Guinnet, Chairman.

— 8. —

AN ESTIMATE of the probable Expense of supporting the WESTMORELAND LOCK HOSPITAL, for the Five Quarters, commencing 1 January 1832 and ending 31 March 1833.

	£.	s.	d.
Estimated Expenditure for 1832 - - - - - -	2,921	–	–
Add, Fifth Quarter - - - - - - - -	730	–	–
£.	3,651	–	–
Deduct, Balance in hand applicable to the Expenditure -	151	–	–
£.	3,500	–	–

Three Thousand Five Hundred Pounds;

Clear of Fees and all other Deductions.

No.		£.	s.	d.	
1.	Salaries and Wages - - -	659	15	5	- - The same amount as last year; it is to be observed that the Nurses and Servants are not provided with Provisions by the Institution.
2.	Annuity to late Apothecary - -	64	12	3	The same as last year.
3.	Provisions for 160 Patients, at 7*l.* per head - - - - -	1,120	–	–	Ditto.
4.	Medicines, Wine, Lint, Tow, Poultice Meal, Lard, Lemons, Groceries, and Surgical Instruments.	275	–	–	- - The same amount as last year; it is to be observed that these expenditures depend, from the nature of the disease, entirely upon the necessities of the case, so that this amount can only be conjectural.
5.	Coals - - - - - - -	175	–	–	- - A decrease in the price of this article causes a saving of 25*l.*, the Estimate last year being 200*l.*
6.	Candles, Soap and Lamp Oil -	46	–	–	The same amount as last year.
7.	Bedding - - - - - -	50	–	–	- - The same amount as last year, to replace those articles unfit for use, the medical treatment of the Patients in a great degree occasioning the decay of the Bedding.
8.	Straw - - - - - - -	35	–	–	- - This sum is considered sufficient, and causes a decrease of 15*l.*, last year being 50*l.*
9.	Washing - - - - - -	175	–	–	The same amount as last year.
10.	Coopers' work, Tin Ware, Brushes, Floorcloths, Trenchers, Knives, Forks, &c. - - - - -	112	7	6	Ditto.
11.	Repairs, &c. of Buildings - -	120	–	–	Ditto.
12.	Stationery and Advertising - -	20	–	–	Ditto.
13.	Rent - - - - - - -	18	9	2	Ditto.
14.	Miscellaneous Expenses - -	50	–	–	Ditto.
	Total Estimate - £.	2,921	4	4	- - The Total Estimate for last year amounted to 2,961*l.* 4*s.* 4*d.*

By order,

Westmorland Lock Hospital,
Dublin, 1 Dec. 1831.

CASUAL INCOME (averaged for the last three years):			
Benefactions - - - - - - - - -	15	7	1
Profit on the Chapel - - - - - - - -	125	10	8
Ditto - Gardens - - - - - - - -	235	15	–
Ditto - Public Rooms - - - - -	462	–	–
Total Income - - - - - £.	1,733	12	4
Short of Expenditure - - £.	1,969	14	4
	3,703	6	8

A Decrease has taken place in the Expenditure of 166 *l.* 13 *s.* 4 *d.* in consequence of the number of Patients being reduced, as suggested by Government.

An Increase has taken place in the actual Income of 50 *l.* yearly, by a Bequest of the late Miss Evory, and 10 *l.* 10 *s.* yearly, a Bequest of the late Richard Cave, Esq.; which, together with the average increase of the casual Income of 48 *l.* 12 *s.* 4 *d.* shows a reduction of 275 *l.* 15 *s.* 8 *d.*

5 December 1831. *Joseph Clarke*, Chairman.

Three of these Physicians are employed attending the patients in the wards of the Hospital, and are called "Intern Physicians."

The others visit the applicants for admission into the Hospital, to ascertain their fitness for hospital treatment, and order when necessary, their habitations to be whitewashed; these are called "Extern Physicians."

The Physicians perform these duties alternately every two months.

Besides the foregoing six Physicians, there are two temporary Physicians appointed, without salary, who are called on to attend when any of the permanent Physicians are unavoidably absent from sickness or other cause, or in cases of unusual increase of patients by reason of epidemic.

Joseph Stevenson, Secretary.

County of Antrim, to wit. } Robert Callwell, of Belfast, Banker and Treasurer to the Royal Belfast Academical Institution, came this day before me, one of His Majesty's Justices of the Peace for said county, and made oath, That the annexed account of the receipts of the said Institution for the year ending the 5th day of January 1832, amounting to 2,146*l.* 19*s.* 6*d.* sterling, and the annexed amount of the expenditure of the said Institution for the same period, amounting to 2,087*l.* 9*s.* 8*d.* sterling, are just and true accounts of the same, to the best of deponent's knowledge and belief; and that the balance remaining in his hand on the said 5th day of January 1832, amounted to 59*l.* 9*s.* 10*d.* sterling.

Robert Callwell.

Sworn before me, at Belfast, this 20th day of January 1832; and I know the deponent.

Wm. Rennie.

N. B. For fitting up Offices, &c. at the Custom House for the Stamp Department, will cost the probable Sum of 681*l.* 10*s.*, and the Stamp-Office in William-street will sell for the probable Sum of £.6,000; this is not included in the Estimate, as it is understood the Stamp Department will appropriate the surplus.

William Murray,
Arch^t and Inspector of Civil Buildings.

House-rent, taxes, &c. of Navigation House, to 25th March 1832			(*b*) 276 18 5½
		£.	3,564 4 3½

Memorandum.—The Board have kept this Estimate as low as the nature of the service will admit, but it is impossible to calculate with certainty, when floods and storms may produce damage which had not been anticipated, and the providing for which casualties would necessarily increase the Estimate.

Only a portion of the Estimate was voted last year, in consequence of the new arrangements for the Board of Public Works, which has caused some of the items for works to be higher than in former Estimates.

(*a*) This was inserted in last year's Estimate.

(*b*) This house is now vacant, but the rent, &c. must continue to be paid, to which there will be in future a set off, by the amount of rent that shall be obtained for it.

By order of the Commissioners,
Henry R. Paine, Secretary.

Office of Public Works,
24 Jan. 1832.

— 27. —

AN ESTIMATE of the Sum which will be required in the Year 1832, for carrying on Works and Repairs at DUNMORE HARBOUR.

Seven Thousand Five Hundred Pounds;

Clear of Fees and all other Deductions.

LETTER from *George Halpin*, Esq. to *Henry R. Paine*, Esq.

Sir, North Wall, 21 February 1832.

IN compliance with the directions of the Commissioners of Public Works, as communicated in your Letter of the 28th January, I have made a careful examination of the Works at Dunmore Pier, and have now the honour to state to the Board the result of my observations.

My attention was first directed to the state of the sea pavement of the Mole, which has been broken up and breached through almost its whole length; those breaches are widening and advancing towards the parapet every storm, and have, at the northern or pier head breach, approached to within nine feet of the string course under the parapet. During my stay at Dunmore, this and the other breaches were partially enlarged by a heavy sea from the south.

The cause of this great breaking up of the pavement is to be found in the insufficiency of the base given to the back of the Mole, which in few places extends 160 feet from the line of the parapet wall, and in parts declines so abruptly as at a fall of one foot to one. This base can never have been sufficient, for the sea could have but little or no power to remove heavy stones at the depth in which the outer edge of the backing is laid, from 22 to 27 feet under the level of the low water of spring-tides, nor were the stones immediately at the end of the paving sufficiently packed or levelled home to it, allowing the sea to underwork and hollow beneath; this process preceding every enlargement of the breaches. Had this portion of the work been sufficiently extended, a small annual outlay would have prevented the back of the Pier being in its present ruinous state.

The paving at the head of the Pier has not been much injured; a quantity of the pavement, and of stones which were laid at the back of the Pier for its repair, have been washed round here, all the smaller material being swept into the angle of the Jetty, which now dries to its northern extremity at the low water of spring-tides, a filling-up of better than 20 feet which has projected into the Harbour, but to no considerable extent.

To place the seaward side of this Pier in a state likely to be durable, the base should be enlarged to a width of at least 200 feet from the line of the parapet wall, and made throughout its length of a uniform section.

The sea or pitch pavement should be carried to a breadth of 70 feet from the line of the parapet, and great care taken in the execution of this work, also in the levelling or packing the stones between it and low-water mark.

Rubble blocks for the backing may be had from the different points lying north of the Pier; Badger's Lair, Net Pool, Strana Buen, distant from three to four furlongs by water carriage. Some blocks for the paving may also be obtained from these points; but the flat rocks under the western quarry, and the quarry opened on the Commissioners' property, near the Forge, afford more durable stone for the pitch pavement; the expense of procuring stone from the latter quarry would be less than from the others, and the working it would, as recommended by Mr. Nimmo, lower that ground, which could afterwards be levelled and usefully laid out for coal-yards, stores, light-keeper's dwelling-house and other establishments connected with or dependent on the Pier.

I would recommend that the working of these quarries, and indeed every other part of the work, be done by contract, with sufficient care on the part of the resident superintendent; work of that description may be well executed in the most rapid and cheap manner.

There has been a slight settlement in the Jetty; this however took place shortly after its being built, and in no way affects its stability; it would require to be pointed as well as the quays, which are otherwise in good repair.

The sea running into the harbour recoils heavily from the slip at the inner end of the Pier Quay, and strikes vessels lying opposite it, under the quarter; it is at one of the packet berths, and considered a great annoyance by the captains of those steam vessels. As this slip is of little present use, it would be better to build it up to the line of the quay.

The inner facing of the parapet wall requires to be finished from the end of the cellars; the cut stone courses for this have already been prepared.

The small square tower on the rock, outside Illaan Gleagh, was shaken during a heavy storm by the weight of the chain bridge then attached; not from any insufficiency of the foundation. With a few iron bands it would hold together for some years longer; but on the completion of the more important works, it would be advisable to rebuild it circular from the low water upwards, and of more than its present height. The removal of the

Printed image digitised by the University of Southampton Library Digitisation Unit

rock on which it stands, unless accompanied by other more extensive rock-cutting, could add but little to the facility of entering the harbour; at present it is useful, as bearing this guide to vessels passing, and as part of the natural breakwater formed by the chain of rocks extending from Illaan Gleagh.

There has been a considerable silting or filling-up over the harbour, on comparison of the present depth of water with the sections sent me by the Board; this silting appears to have been since the year 1820; so much as eight feet and upwards along the quays, extending towards the mooring buoys, where the mud on the rock is three feet in thickness. At the lower end of the quay-slip where the depth was 16 feet at the low water of spring-tides, it is now but nine feet, shoaling to the upper end of the slip, where it is nearly dry at low water spring-tide; at the inner point of the Jetty the depth has diminished 10 feet; this, however, from the stones washed round the Pier head, at the outer point more than 20 feet, as previously mentioned, at the east side of the harbour or rock, which had been levelled by the diving-bell, the silt now varies from two to four feet in thickness. The soft portion of the deposit may be removed without difficulty.

The rail or tramways through the quarries near the Pier are for the most part capable of immediate use. The branch to the western quarry wants but little repair; the sleepers in places require to be raised; but a small expense would in a few days put the whole length now laid in working order.

There is also a considerable stock of tram-plates in possession of the Commissioners, which will be sufficient for all the additional branches it may be necessary to lay in working the quarries.

For ascertaining the quantity of stones, a weigh-bridge placed on part of the tramway, over which the waggons may have to pass, would be the simplest mode of measurement, and least liable to fraud or error.

Some of the trucks, the shear poles, blocks, crabs, purchases and a quantity of tools are fit for use, and will materially expedite the commencement of the works.

I have not prepared an estimate, nor taken steps for any temporary repairs of the Pier, considering that such, if unaccompanied by an extension of the backing, would be of little service, and would be liable to be washed round the Pier by the first storm, and add to the filling up beyond the Jetty, nor could measures be taken for such temporary repair much sooner than for regular operations.

The pitch paving and backing may be completed in two years: in the ensuing summer the works may be so forwarded as to secure the Pier from damages by storm.

I concur with the Commissioners in thinking that no addition to the length of the Pier is at present requisite, but would impress on them the necessity of carrying to a sufficient extent the repair of the present Mole to prevent the recurrences of considerable and annual expense.

I sent notice to builders at Waterford that the repairs of the Pier would be let by contract. Some persons have viewed the work, but as it is likely persons may not be found there willing to become contractors, I would respectfully beg leave to recommend the Board to advertise the work.

Herewith I send plans exhibiting the present state of the Pier and Harbour, with an estimate of the probable expense of completing the works. Copies of a specification and form of proposal, which I drew out and gave for contractors at Dunmore; also an account of the quantity of cut stone, state and quantity of the tramways and tram-plates, &c., and return with them the maps and papers sent me by the Commissioners, previous to my visiting Dunmore.

I have the honour, &c.

ESTIMATE for Work to be executed at Dunmore Pier.

	£.	s.	d.
35,620 cubic yards of rubble stone blocks, for the backing and pitch or sea pavement, at 4 *s.* - - - - - - - - - -	7,124	–	–
2,877 superficial yards of pitch paving, bedded and jointed with Aberthaw mortar, at 35 *s.* - - - - - - - - - -	5,034	15	–
2,200 superficial feet, setting the inner face of the parapet wall in cut stone ashlar courses (already prepared), at 8 *d.* - - - -	73	6	8
184 cubic yards of rubble masonry, to back same to the front work of the parapet, at 8 *s.* - - - - - - - - - - -	73	12	–
90 superficial yards of flagging, between the outer and inner coping on parapet wall, flags already dressed on top, at 1 *s.* 6 *d.* - - -	6	15	–
For repairing roof of coal cellars, and pointing with cement the quays - - - - - - - - - - - - - -	150	–	–
2,436 cubic feet of cut stone work for beacon on rock, taking down to low-water mark, rebuilding it circular to 15 feet over the level of high-water mark, at 2 *s.* 6 *d.* - - - - - - - - - -	304	10	–
Contingencies at 10 per cent. - - - - - - - - -	1,276	13	8
TOTAL - - - £.	14,043	12	4

21 Feb. 1832.
